### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: each of the independent claims includes limitations directed to the symbols being received through balanced electromagnetic couplers or to the formation of an electromagnetic coupler. These limitations in combination with the others in the claims are not shown by the prior art and would not have been obvious. The examiner agrees with applicant's arguments on pages 9-10 of the response filed 18 January 2006.

2. Furthermore, the amendments made to the claims remove the rejection made based on double patenting and it does not appear that the claims as amended could be properly rejected under obviousness type double patenting either since it is not clear that it would be obvious to use parallel traces rather than traces that cross each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Glenn A. Auve whose telephone number is (571) 272-3623. The examiner can normally be reached on M-F 8:00 AM-5:30 PM, every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Rinehart can be reached on (571) 272-3632. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
